**[On the enemy attacking Global Communications and shutting down freedom of speech]**

## **-High Priestess Maxine Dietrich**

I posted regarding this before. Websites and videos are now coming down like dominos. The Jews are taking over the internet. Unless we fight back, all will be lost and they will have control of communications again.

Most people are not living in reality. The facts are, if the Jews had control of communications, as they did before the internet, how many of you would still be deceived and damned by Christianity, Islam and other Jewish filth?

The Jewish intention is to create a slave state through the removal of all knowledge. They control the media, the press, etc, so any truths cannot be made public or reach the populace.

Thanks to the US Founding Fathers, many of whom were Satanists, books on the occult and other forbidden subjects have been freely available. I will always be grateful beyond words in regards to being able to purchase, and study; also to borrow books from the Public Libraries over the years. My knowledge of astrology began when I was in my teens. Thankfully, this set me on the path to the truth, much understanding of life and above all, gave me knowledge to know Christianity is a lie. This led me to Satan.

The world is in a mess right now, it is REAL bad. Idiots, no-nunks, fools, people with buzzard brains, etc, deny this and will not see the truth for what it is. Jewish doctors dole out and push subscription drugs to alter one's mind and perspective of reality, and the Jewish run press pushes lies concerning true public opinion along with many other things. The environment is to the point where it is close to being unsalvageable; Europe is a disaster with the Jews actively fighting for the genocide of the White Race, where they will then step in and use the non-Whites as slaves/disposable human beings, the USA is gradually degenerating to where there will be no more rights. The enemy is on an onslaught to destroy us all. THIS WILL AFFECT YOU, YOUR LOVED ONES, AND EVERYTHING YOU'VE WORKED FOR AND HAVE.

The Jews feel they are so entitled to do as they please. They feel they are entitled to take control of the internet, which is open and free and belongs to no one, so they can reinstate their lies.

"Just as the enemy has people who cannot see us, we cannot see them. However, they will manifest blatantly as we get closer to the climax of our cause."

-- Amdusias [Told to the JoS Ministry in 2003]

If we do not fight back, all will be lost. Communications and knowledge are the most important factors one has when fighting a war.

All of you are here because of the internet being open and free. Satan has given his message of truth because of the freedom of the internet. If the internet goes under, which is what the Jews want, along with their Christian and Muslim lackeys, following will more than likely be another communist purge, an inquisition, where all of us “witches” will be hunted down and destroyed. After that, anyone who they even suspect in the least of not following their odious agenda for the enslavement of the world will be destroyed. Freedom must be fought for. If cowards turn the other cheek, walk the extra mile and slavishly worship jewsus and other fictitious Jewish invented scum, civilization will not last. Most people out there do not have any idea of just how serious this is.

I also ask that you boycott [www.weebly.com](http://www.weebly.com)

They are Jewish as excrement and have taken down loads of websites that do not support the Jewish agenda.

Also, if your websites have been taken down, most of them can be accessed at:

<http://archive.org/web/>

Just copy & paste the URL into the “BROWSE HISTORY” box. A page with a calendar will come up and certain dates will be highlighted. Click on any one of those dates, usually the most recent, and this will bring up the website. Just copy & paste the URL on there to re-link anything lost.

Also, always make sure to save any videos, any websites, linked pages and so forth and burn these to disc. Be organized when saving your webpages. Don't do it haphazard. Save your graphics. Save everything and be organized. The more organized you are, the faster and easier it is to put your websites, your videos and anything else you have right back up.

I will also have more 2 more very important rituals forthcoming regarding this issue. We have strength in numbers.

Right now, we need to stay on these two rituals every day:
